# “It’s all about news and sales”

Sven-Olof Karlsson CEO, Abacus Sportswear

IT’S A FAST MOVING AND CHANGING world we live in. Digitization is perhaps the single biggest factor that changes how we live and do things compared to before. In particular, buying behavior is changing, and you can now get most of what you need or want delivered to your mailbox the next day with just a click. But in spite of all this, a fact remains; The consumer needs to be inspired, whether online or in-store.

## News & sales

What is the first thing you think of when you enter a store, digital or physical? Is it the layout, colors, products, or service? Do you know exactly what you are looking for or do you just want to look around? The answer to these questions is very different and individual for each person and occasion. But the store’s role in all situations is to inspire and meet the customer’s needs. In many ways it is about creating a sense of interest. That the customer, whether you visit often or rarely, feels that the store is neat and fresh. A store people find interesting inspires and thus creates sales.

## What can we offer our customers?

With the 2022 collection, we have changed the structure to have four “drops” during the year. We’re doing this to create more sales opportunities for the shops. With three different “faces” and three different launches, you have news in the shop on three different occasions. It also provides the opportunity to actively communicate each drop on three different occasions. Fewer products at the same time also allows you to merchandise better, customers see more easily what

is there and will shop more. We will link this to merchandise proposals and training of staff. We also believe that many wholesalers benefit from one major purchasing opportunity. This way, one can see the entire year’s products at the same time. Also, receiving different deliveries improves liquidity. “We are very keen that our products not only sell to our retailers, but even more out of the stores. Therefore, we want to create the best conditions for our customers to succeed together with us. It’s all about news and sales,” says Sven-Olof Karlsson, CEO of Abacus Sportswear.

## There are many opportunities

As always, we work from color groups where black and navy are base colors. In addition, there are seasonal colors and different fashionable patterns to every drop. What’s so smart about it is that you can combine over drops, i.e. that some styles from previous drops can

advantageously be matched to the next drop with the same base color and create a new, fresh look. We also recommend models we believe in a little extra, the so-called “hero products”. There are also ready-made packages with the strongest products if you prefer that we choose. These are the products we will market primarily.

The idea is to launch the new products and colors at the various drop dates so that you get a shop that constantly feels new, fresh and very inspiring.

“  
*A store people find interesting inspires and thus creates sales.*”

## Woman Black Collection - Drop 1

Delivery from February 15, 2022.

"Graphics with crispy orchid and timeless black"

# key styles

**Dornoch softshell hybrid jacket** is made of a thin, flexible, wind and waterproof polyester softshell in the front and back body. It has a thin, stretchy fleece that is brushed on the inside on the sleeves and in the sides. There is a string and a stopper in the body bottom to adjust the fit. It has two front pockets, elastic in the sleeve bottoms, and a wind flap behind the front zip that also protects your chin. The jacket has reflective details as prints along the back and along the front zipper. Dornoch softshell hybrid jacket protects you from the wind and keeps you warm where you need it the most.

**Scramble fleece jacket** is made of a stretchy, jacquard knitted fleece in the front and back body. It has a thin, stretchy fleece that is brushed on the inside on the sleeves and in the sides. The quality is soft and will keep you warm, at the same time as it has drycool and wicking properties that will prevent you from getting humid from the inside. It has two front pockets and full zip at front. This will be your new cosy favorite, on and off the course!

**Lily skort** is made of a functional fabric that is stretchable and breathable. The fabric also has drycool and wicking effects. Two front pockets and one back pocket give room for the necessities. Inner shorts in mesh are available in all our skorts. The skort comes in both 45 cm and 50 cm length. Match it up with any of the Lily tops and visor and you're kitted for the day!

**Tenby longsleeve** is made of a very stretchy, lightweight fabric that is also highly breathable. Some of the color combinations comes with contrast color for a sporty look. Front zipper has reflective piping. Tenby is perfect as a first layer to keep you warm and comfortable, at the same time as it works perfectly by itself during warmer days.

**Lily shortsleeve polo** is made of a functional drycool fabric that is stretchable and breathable. Solid body with contrast pattern on shoulders and buttoning. Top button has a feminine rhinestone design. This polo matches nicely with Lily skort.

## Woman bottoms

Our Elite bottoms are made of a 4-way stretch, soft functional material that is also very breathable. The fabric has drycool and wicking effects. There is a front zipper and two front and two back pockets give room for the necessities. The right back pocket also has a silicon tape to keep the score card in place. All bottoms also have loops around the waist, if you prefer to use a belt. It does not matter which style you choose; Elite bottoms are so comfortable that you will never want to take them off.

## Mens Black Collection - Drop 1

Delivery from February 15, 2022.

"Timeless black with grey and playful aloe"

# key styles

**Dornoch softshell hybrid jacket** is made of a thin, flexible, wind and waterproof polyester softshell in the front and back body. It has a thin, stretchy fleece that is brushed on the inside on the sleeves and in the sides. There is a string and a stopper in the body bottom to adjust the fit. It has two front pockets, elastic in the sleeve bottoms, and a wind flap behind the front zip that also protects your chin. The jacket has reflective details as prints along the back and along the front zipper. Dornoch softshell hybrid jacket protects you from the wind and keeps you warm where you need it the most.

**Sunningdale half zip** is made of a stretchy, one sided brushed melange fleece. The inside has a check pattern for better air circulation that will keep you warmer at the same time as it has drycool and wicking properties to prevent humidity from the inside. The shoulders has a sporty woven fabric. This is the perfect second layer!

**Tenby long sleeve** is made of a very stretchy, lightweight fabric that is also highly breathable. Comes with contrast color along the sleeves for a sporty look. Front zipper has reflective piping. Tenby is perfect as a first layer to keep you warm and comfortable, at the same time as it works perfectly by itself during warmer days.

**Scramble wind fleece sweater** is made of a stretchy, knitted wind fleece. The quality is soft and will keep you warm, at the same time as it's windproof and has drycool and wicking properties that will prevent you from getting humid from the inside. It has a half zip at front, and decorative pocket at sleeve. This will be your new cosy favorite, on and off the course!

**Mellion shorts** is made of a super soft, 4-way stretch, functional material that is lightweight and breathable. The fabric also has drycool and wicking effects. Two front and two back pockets and the right back pocket has a silicone tape inside to prevent the scorecard to fall out. There is an elastic tape at back of waist with an anti-slip effect for a better fit and six beltloops around the waist. These shorts are so nice to wear you do not want to take them off!

**Hammel polo** is made of a very stretchy, lightweight fabric that also has drycool and wicking effects. The polo has 3 buttons and a flat knit collar with an abacus logo on. At center back there is an abacus reflective vertical print logo that keeps you sporty, and visible in the dark.

# Dress for success

Why do you get wet from inside your rain gear when it rains? You need breathability!

Breathability is extremely important when people are in motion, which the golfer always is. It is easy to stare blindly at the waterproof qualities when it's really the breathability that is most important. Otherwise you sweat and get wet from the inside. If you then add stretch and light weight you get a rain set that really works for the active golfer, on and off the course.

## Key features for waterproofs

**Waterproofness** relates to how many millimeters of water the fabric can withstand before through. A fabric is considered waterproof if it has a WP of 2000 mm. abacus® rainwears range from 10 000 to 20 000 WP.

**Breathability** It's so you don't get wet from the inside. It's measured by how many grams of vapor that can pass through the fabric in 24 hours. The larger number, the higher breathability. abacus® rainwears varies from 10,000 to 50,000g.

**Stretch** is crucial for your ability to move unrestrictedly, so that you can keep all your focus on your game. Some of abacus® rainwears can stretch up to twice their length and is always four way stretch.

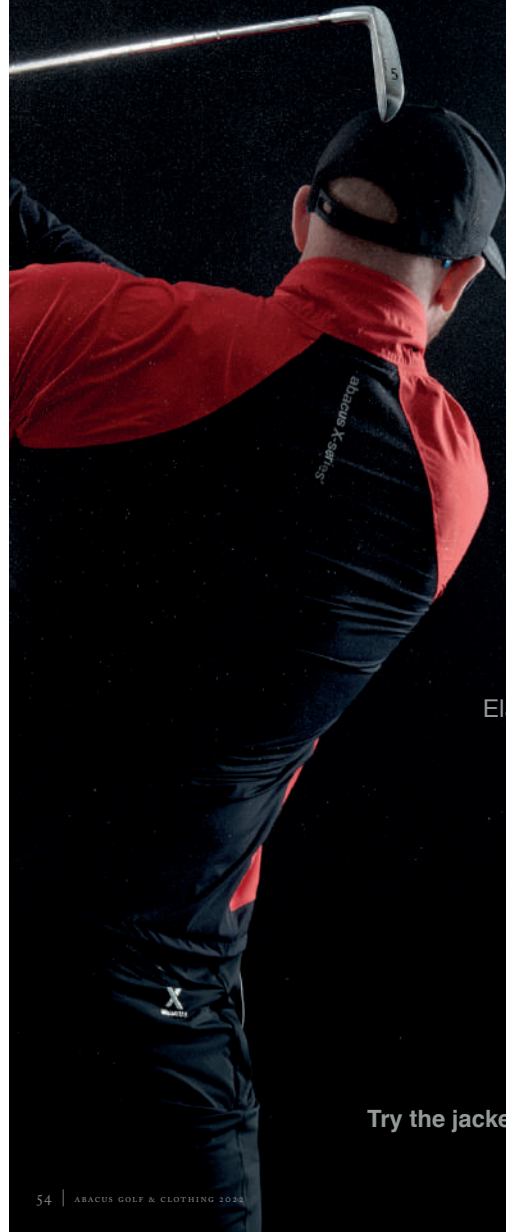

**Lightweight** waterproofs doesn't need to be bulky or heavy. They should never hinder your swing and barely be noticeable wearing. For example, abacus® Pitch 37.5 weighs just 250g in size large.

PITCH RAIN JACKET  
**abacus X-series®**

POWERED BY

Try the jacket yourself and X-perience the difference  
**#abacusXperience**

## Pitch keeps you dry all day.

The Pitch rain set is engineered by abacus® with the golfer in mind. Using 37.5 technology it's built to withstand even the most extreme weather conditions on the golf course, heat, rain, wind and cold. It's all about staying dry and feeling free when you swing. Highly stretchable and extremely breathable.

It's made to ensure your comfort so you can focus on your performance. Whatever the conditions, abacus x-series allows you to keep your full focus where

it belongs, on your game. 37.5 technology works to improve the microenvironment inside the garment. It allows the vapor to be forced through the fabric quicker, keeping your body and the garment dry, even in low temperatures and high humidity.

A climate of 37.5 degrees and a humidity of 40-60% is created. This is the ideal comfort zone, also your ideal performance zone.

Always dress in layers. That enables you to adjust what you're wearing to the weather conditions. Always use garments with high breathability and wicking properties, so you prevent getting wet from the inside.

### 37.5® TECHNOLOGY

37.5® active particles increase comfort and performance™

37.5® technology helps warm you up when you're cold and cool you down when you're hot

37.5® technology helps you maintain a comfortable personal microclimate relative humidity of 37.5%

37.5® technology removes sweat in the vapor stage before liquid sweat forms

37.5® active particles are derived from nature

37.5® traps odors and then releases them when washed and dried

37.5® works for the life of the garment/clothing

# Pitch

Pitch rain set are for the discerning who doesn't settle for anything but the best. In pitch rain set with 37.5 technology that temper the environment between you and the garment, you will always have your optimum comfort zone of 37.5 degrees Celsius, where you perform best. Focus on your game and let Pitch fix the rest.

## We are very proud to introduce Bounce 3-layer technology rainwear

This is our latest addition to the abacus® rain assortment. Bounce is designed with the active golfer in mind combining function, quality and design so that the user can focus on their game. Highly waterproof and breathability of 15.000 WP/MVP, plus stretch and lightweight qualities means you will have rainwear to count on for years to come.

Abacus® Bounce Rain Jacket comes in several colors for women and men. There are traditional rain trousers but for this year, a new product called Bounce Waterproof Trousers has also been added. They look like a regular trousers, yet are full of functionality.

Imagine going straight from work to the 1st tee when it's raining! Yes, it's absolutely possible! This rainwear will definitely make you bounce beyond your limits.

## Be functional and look stylish, on and off the golf course.

If you are on or off the golf course doesn't really matter - there's a big chance Links will become your favourite garment when you're outside being active.

With 2-way stretch and super soft fabric you'll feel comfortable and flexible. The breathability and waterproofness will keep the moisture on the outside and you'll remain dry. Don't worry about if it's raining or not - you'll hardly notice the difference. Links will do the job - count on it.

### Links

Links is a functional rain set with good breathability. The fabric has a two-way stretch and provides good mobility. All seams are sealed. Drawstring in most places makes it possible to adjust to perfect fit. This rain set works just as well to use for everyday life as on the golf course.

## Features - Links functional rain set

Stand up collar, adjustable at back

Good 2-way stretch

Brushed tricot inside collar and chin protection flap

All sealed seams

Two front zip pockets

Adjustable string at body bottom

Velcro at end of sleeve for a perfect fit

Right pocket with opening to your inner trousers

Two front zip pockets and one backpocket

Elastic back and belt loops for great fit

Light weight and super soft fabric keeps you looking as good as you feel

10.000 MVP breathability

10.000 WP waterproof

Zipper and velcro for dressing without taking shoes off

Possible to shorten leg bottom for personal fitting

## Umbrella

Art.No 7840

400-red 284-powerpink 600-black 650-dk.grey

100% polyester

**2 Square storm safe umbrella**

An umbrella is always useful, both on and off the course when the rain kicks in. Our umbrella is of course waterproof as well as storm proof and comes in a perfect square size for golf to cover everything you need. It's also lightweight and the foam, anti-slip handle makes it soft and comfortable to carry it around for the entire round. Quick dry fabric means it will dry in no time.

## Gullane warm mitten

Art.No 7290 Size onesize

600-black

100% polyester

**4 Mittens gloves**

These mittens have quickly become one of our most popular accessories! They are made of a waterrepellent fabric and are generously sized which makes it easy to pull them over your hands including your golf glove. Let your hands stay warm and dry in between your shots, they deserve it!

Did you know they are also suitable for to print a club logo on?

# What Weather Type Are You?

That may seem like a strange question but, think about it! Because, when you understand the answer, it will help you make the best decision as to what rain gear you need!

Are you a storm? Someone who will go out and play golf for hours in even the heaviest of rains? One who needs to be convinced to come in from the next tee when the lightening is crashing down?

Or, are you fair weather, sunny? You run inside at even the hint of some drizzle and don't dare stick your head out of the clubhouse until the sun is shining and the birds are chirping?

The performance and functionality that you need when choosing rain gear depends on what you plan to do while wearing it as well as the conditions your "weather type" will have you using it in.

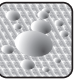

Luckily for you, abacus® has you covered whether you're stormy or sunny. All of our rain gear comes with stretch capabilities, crucial for a free and easy swing. However, we have different levels, Links with 2-way stretch and Bounce and Pitch with 4-way. Which one do you need?

All of our rain gear has great waterproof abilities and, just as important, are breathable

as well. This means staying dry from conditions both outside and within the gear! Essential when you plan to be active in the rain so you stay comfortable and dry. This holds true for our complete line from Links to our top-of-the-line Pitch!

Of course, all of our rain gear is windproof as well. Because, whether you're stormy or sunny, nobody wants a bit of wind to put them off their game.

No matter what weather type you are, you can count on any of the abacus® rainsuits to keep you comfortable and dry, inside and out.

# abacus X-series®

Performance beyond your expectations

Pitch rain set is the flag ship of x-series, abacus® most technology advanced collection ever. These waterproofs utilize 37.5® technology, helping you control your core temperature no matter the activity and even in the most extreme weather conditions.

## What is 37.5® technology?

37.5 technology helps keep your body temperature at the ideal core temperature of 37.5 Celsius and helps keep the microclimate next to your skin at the relative humidity of 37.5%. When you're hot, patented active particles embedded in the material remove sweat in the vapor stage before liquid sweat forms, cooling you down. When you're cold, the same active particles trap your energy to help you warm up.

37.5 technology is built up from coconut shell and volcanic sand embedded at the fiber level meaning industry leading wicking properties keeping you comfortable and dry. These properties will never wash out, unlike many other wicking treatments. Volcanic sand and activated carbon from coconut fiber creates 800% more surface area keeping you dryer, more comfortable and performing at your peak level.

## It's all about keeping you dry in all kinds of weather

Utilizing world leading technologies and fabrics, lightweight materials and a perfect fit. It's for those of us who live an active life on and off the golf course. You're guaranteed to stay comfortable and dry, inside and out.

## Classics

These are the garments that never goes out of style. They are perfect for cresting with company or club logo and continues to look good year after year. All styles in the classic collection are possible to embroider or print, and we do it in our own embroidery studio just over the courtyard.

## key styles

**Lytham softshell jacket** is made out of a stretchy softshell fabric that is also very breathable. Has two front pockets. Elastic binding at bottom and cuffs for a better fit. This jacket will keep the wind out as well as keeping you warm. It's also perfect for cresting.

**Ganton windjacket** is made of a thin, windproof fabric in polyester coming from re-cycled plastic bottles. Fullzip at front and two frontpockets. Elastic binding at sleevebottoms and drawstring in bodybottom for a better fit. It takes no space – keep it with you at all times, and you are prepared when the wind sets in.

**Dunbar half zip fleece** is made of a soft, stretchy fabric, with good breathability. The fabric is also stretchy and has drycool and wicking effects. The inside has a very comfortable brushed fleece that will keep you warm when its cold. Dunbar works perfectly by itself or underneath a shelljacket to stay warmer.

**Cray drycool polo** is made of a functional fabric that is stretchable and breathable. The fabric also has drycool and wicking effects. The polo has front buttons and a piquet flat knit collar. Very suitable for resort and team logo, and never goes out of style!

**Cleek flex shorts** is made of a functional, stretchy material that is also very lightweight and breathable. The fabric also has drycool and wicking effects. Two front and two back pockets give room for the necessities. Perfect for hot summer days at the golf course!

**I**N A STUDIO IN THE EASTERN wing of the Abacus headquarters at Beragården in Lund, the embroidery machines are going full speed ahead for the upcoming season. In May two years ago, Abacus purchased the embroidery machines and equipment from a partner company, which was about to be closed. This completely opened up new opportunities in terms of embroidery and the logo business. A trend that is increasing in many industries.

### Create your unique product

More and more clubs understand how important it is to profile and nurture their brand. The members, together with the staff, sponsors, officials and leaders are all important advertising possibilities. At the same time, you get a unique product that no one else can sell; a garment or other item with your club logo on it. There are many reasons why you want to wear a garment with your logo on it. It could be the brand, you might think the logo itself is pretty, or you want to wear something you are extra proud of. Wanting to profile oneself, either by name or logotype, has become more and more common. We saw an opportunity almost a year ago when our former partner wanted to shut down his embroidery business and asked if we wanted to take over. The answer was yes of course.

“

*Embroider or print on jackets, sweaters, polo shirts, and also on bags and travel covers.*

*This makes the club logo clearly visible on luggage belts at airports around the world.*

### Production control and quality

Since all embroidery and printing is now done in-house by our own staff, we now have completely different possibilities for quality control and can follow the process from start to finish. Mia Potter, embroidery manager at Abacus, has a good sense of the visual and ensures a high-quality level. She also helps our customers develop their logos. Sometimes it is just about color adjustments but in other cases you may change the entire appearance of a logo to get a more commercial look. Those who have spent some time making the logo match their club or more or better in marketing and selling their club in other ways have seen a large increase in sales. “You can do a lot with a logo. The only boundary is your imagination,” says Mia.

Many clubs choose to logo several different colors of the same garment. It gives a wonderful feeling for the breadth of assortment, as well as giving a very nice presentation in store. Abacus had the great pleasure of embroidering the clothes for the winning European team at the Solheim Cup in 2019. We look forward to embroidering and printing many more logos for years to come.

### Areas of use and sales

The facilities are starting to open eyes more and more. Not just in that the club puts logos on the clothes for the staff but also on products available for sale in the shop. In the past, it was more common at older, more traditional clubs but now it's available to almost everyone, which is very nice to see. Many members are proud of their club and would like to help promote the facility. After all, they are living advertising possibilities. Embroider or print on jackets, sweaters, polo shirts, and also on bags and travel covers. This makes the club logo clearly visible on luggage belts at airports around the world.

### Logo for everyone

Clubs that do not have a shop are also welcome to contact us. We have a model for a successful process to sell more garments with logos, both before and during the season. Furthermore, good profiling and visibility can result in an increased number of members. This is just one possibility but there are many more. The driving force lies in seeing this as a new opportunity to supplement your regular seasonal sales. Most people choose to put their club logo on our classics range. These are our timeless garments that are available year after year. Please contact us and together, we will see how we could increase your sales and profitability on logoed garments.

# We adapt logos and emblems to the best possible embroidery

### Supply us with your logo

It should be high resolution and preferably vector graphic. Please ensure that all fonts are converted to outline. Deliver the file to customer service at [evst@abacussportswear.com](mailto:evst@abacussportswear.com).

### Size and placement

Please supply us with your requested placement. Our standard positions are left chest, left sleeve, right chest and back of neck.

Note: Some styles already have abacus logo in these areas. Therefore we kindly ask you to provide us with two placement alternatives.

Please specify requested size of apparel logo, width x height while placing your order.

### Color reference

Please supply us with the correct pantone references for us to match your logo with.

### From proof to shipping

For all new cresting, we will supply you with a pdf or (if necessary) a real embroidery sample for your approval. Confirmation before production.

We are proudly embroidering with help from local well trusted partners.

We always work together with our customers to meet the tightest production lead times possible and to ensure your requested deadlines.

To make any embroidery or print we need your logo in eps or ai format. If you have embroidered before and already have an embroidery card, please provide us with the .dst file.

## OUR FUTURE STARS

## Junior Classics

Of course, we also have comfortable and functional clothing for our youngsters. All our junior apparel have the same quality and function as our adult styles. It will allow the active junior to feel freedom of movement, on and off the course. A lot of our junior assortment is also used to dress junior teams and enhance their team spirit!

### Jr Links rainset

Art.No 5100 Size 130-170 € 85,00

300-navy 600-black

96% polyester 4% spandex

Drycool | Breathable | Stretchable | Wicking

### 1 Gullane warm mittens

These mittens are the perfect protection for your hands when you want to play golf in colder weather.

They are generously sized which makes it easy to pull them over your hands while still wearing your golf glove. Pull them on between your shots, and they will be your hands' best friends.

It's also possible to print a club logo on the mittens, providing a perfect opportunity for a club to brand itself.

### 2 Bag towel

This is a perfect sized golf towel with no abacus logos on it. This leaves space to embroider it with a club or resort logo! Hang it on your bag with the attached hook and you are well prepared for the entire round, no matter what dirt or moisture gets sent your way.

### 3 Sport bag

This bag is made of durable polyamide and is the perfect size for a quick getaway of a day or even a weekend!

Due to the square size it fits more than you think. It is also one of our most popular logo products, enabling clubs and resorts to profile themselves. There is even a hidden pocket for dirty shoes so you don't mess up the rest of the items in the bag.

Always with the golfer in mind.

### 4 Cabin bag

This is the ultimate bag for light travel. With two wheels and one adjustable handle the bag is easy to bring along on any trip. It can even be used as a backpack! Several pockets as well as side mesh that securely holds a water bottle to bring along makes this the perfect bag when you travel with hand luggage only. Or why not use it for work?

## Classic accessories

Anyone can appreciate a size independent accessory, like a bag or a pair of gloves. They are all also easy to crest with embroidery or print, why a lot of our customers choose to logo them with their company or resort logo.

#### Travelcover

Art.No 7826 Size onesize € 50,00

## ROBERT KARLSSON CHOOSES ABACUS X-SERIES

"It is when you actually use the products yourself  
that you understand the difference."

The American company that developed the 37.5® technology has high ambitions. Keeping the environment that the user experiences at 37.5 degrees at all times. This is the body's optimal comfort zone, as you do not sweat or feel cold and you perform at your best. This is done through a fabric with fibers that are composed of, among other things, coconut shells and volcanic sand. This combination of

materials provides the function of removing moisture from the body much faster if you are hot, but holding in heat if you are cold. You take care, so to speak, of the environment "inside the garment". The X-series garments are extremely light, stretchy, always with UV protection, and have one of the best breathability on the market. It is also completely chemical-free and its functionality will never get washed out.

## Ambassadors and partners

abacus® is a proud supplier to several teams and federations around the world including the Ryder Cup and Solheim Cup. We also provide ambassadors with golf wear that helps them focus on winning. They provide real life feedback which then goes in to our designs. This means results you can count on in every piece of abacus clothing.
